

## HR Alumni Networking Nite

**Speaker:**  
**Ms Charlotte Lim**  
Co-Founder  
JobTech

Charlotte is Co-Founder of JobTech where she is responsible for steering the strategic growth and development of the organisation. She has over 10 years of experience in a multi-disciplinary career spanning roles in strategy and business development across the government, NGO and private sectors.

### About Charlotte's Sharing

In her sharing, Charlotte will be addressing the following key points:

- How would AI revolutionise recruitment?
- What would be at stake if organisations don't adopt and embrace AI?
- AI in recruitment
- The future that HR professionals can expect in the coming years

### About JobTech

JobTech is Singapore's leading Artificial Intelligence and Big Data Analytics start-up that provides optimised job matching tools and real-time labour market intelligence. Using core technology that is the result of 10 years of research and development by top machine learning experts and data scientists, the company is able to analyse more than 1 million job postings every day, providing complete and accurate visibility of online jobs markets around the world. JobTech serves a multitude of customers, including employers, job seekers, businesses, financial institutions, the government, recruiters and consultancy firms.
