

## **NBS Focus Point: Transformational Thinking – Strategies for Success in a Changing World**

**Joe Augustin**  
Presentation Coach and Emcee

Joe Augustin has been a professional emcee since 1990 with clients as diverse as the governments of Australia, Mongolia and Singapore, multi-national corporations like JP Morgan and General Motors and non-profit organisations like the Singapore Catholic Church and Make A Wish Foundation.

When it matters most, event organisers know they can RELY on a master of ceremonies that thinks on his feet and has almost 30 years of experience, not only on stage, but also on the radio and TV.

Joe constantly upgrades his knowledge – investing in training in the areas of sales, marketing and presentation – having learnt from the very best in the business. Because of his exposure to such a varied background of experiences, Joe is able to relate to his audience in a truly unique way. And always with an air of good taste, Joe always helps his clients put their best foot forward.
