

There are 2 course sites that Freshmen have been given access to and freshmen should complete the modules in both these course sites.

Details are as follows:

21S1_CCL-CORE: Co-curricular Learning: Core Modules (Compulsory)

This course site contains 3 compulsory modules that **all freshmen must complete by the end of semester 1:**

- Fostering a Community of Respect (*to be completed before / during TOP where possible*)
- Foundational Leadership (*to be completed any time before the end of the semester*)
- Academic Integrity (*preferably to be completed at the start of the semester*)

Those who do not complete these 3 modules will not be able to access their exam results.

21S1_CCL-FRESH: Co-curricular Learning: Freshmen Transition and Orientation

This course site contains materials that will be useful for freshmen's transition into University life.

The site contains:

- SGSecure (online module)
- Student Conduct online module, "Think before you type"
 - Reference materials include Freshmen briefing slides on Student Conduct, our Student Code of Conduct and Anti-Harassment Policy.
- Psychological Wellbeing
 - Video on University Wellbeing Office
 - Reaching out to your Peers (online module)
- Campus Health and Safety (online module)
- Residential Hall Life (online module for those staying in the Halls)

While these modules are not "compulsory", we will still encourage all freshmen to go through these as part of their orientation to the University.
